

Last Chance to **Save the BREAKWATER!** We need you this **TUESDAY!**

The DFG denied our reserve...

On August 2nd, 2006, the Department of Fish & Game (DFG) denied our request for a reserve from Breakwater to Hopkins. We have one last opportunity to show them that we matter in this debate.

Environmental Groups are not helping divers...

Groups such as the Monterey Bay Aquarium and the Ocean Conservancy say that the Breakwater "is too small to protect!" Divers have been their biggest advocates, yet they are not speaking up to help us in these final hours. We're in this alone and every diver in the room this will make a difference this Tuesday.

We need DIVERS on Tuesday, August 15th in Monterey!

The divers of Monterey have fought to make the Breakwater a reserve for 10 years. We're losing the battle and need your help. Please take off work to attend this meeting. Speak your mind or just show your support.

This is the FINAL MEETING for your presence to be shown. Act now!

We want our wolfeels and rockfish back!

Tuesday, August 15th

9:00AM

Monterey Bay Resort

2600 Sand Dunes Dr

Monterey, CA 93940
