

**Announcing the 2009 Raja Ampat Entrance Tag Design Contest
in association with Wetpixel.com**

Do you have the perfect Raja Ampat photo?

Is it one that truly captures the excitement and beauty of Raja Ampat diving?

Do you want to see it printed 4,000 times and attached to BCD's the world over?

If so, then enter the official Raja Ampat 2009 park entrance tag design contest. Enter up to 2 photos or graphic designs per contestant **before the 28th August 2008**. After finalists are chosen, you – the public – will vote for the best image or design until the 25th September 2008. Winners will be announced on the 1st October 2008.

Please submit full-resolution digital images to Wetpixel. Full details at <http://wetpixel.com/raja>

When submitting an image, please bear in mind the **limitations** imposed by reproduction on a small (5 cm diameter), circular, plastic tag. The 2007 and 2008 tag design can be found below for your reference. Note that images do not have to be submitted in circular format, though we will need to adapt images to the circular tag.

Prize-winners retain copyright for their image, but grant a full license to Tim Pengelola (management team) for use in non-profit park management activities (e.g. village-education programs, village posters, calendars, management presentations, etc). Any such use of submitted photos will include accreditation of the photographer/designer's name. Note that the winners will be required to submit a signed waiver, which grants the Tim Pengelola non-exclusive rights to the images/designs. Copies of the waiver can be obtained online at: <http://wetpixel.com/raja>

This year the lucky winner will receive a 7 day 6 night all inclusive package* dive trip at Raja Ampat's original ecoresort at Kri kindly donated by Papua Diving. (*excludes airfares).
